

Check a post before you share it

Use this when a post makes a big claim and you want to pass it on.

1

Stop

Notice how the post makes you feel.
Do not share it yet.

2

Investigate the source

Find out who posted it first and what they know.

3

Find better coverage

Look for other reports or official pages about the same claim.

4

Trace to the original

Find the full clip or document and read what surrounds it.

Example from Case 1

- 1 At 4:52 p.m., a post asks “Screening canceled?” Nobody reposts it yet.
- 2 The clip comes from the coordinator’s Friday meeting.
- 3 Mateo’s booking email confirms Friday, 6–9 p.m.
- 4 The transcript adds “through that reader.” Only the broken side door is affected.

⚠ Watch out: Do not call a cropped clip fake. This clip is real. It stops mid-sentence.

Sentence
frames

The post claims ____.

The original says ____.

I could not confirm ____ yet.
